

Tasks To Be Performed:

1. Connect to Azure Cloud Shell
2. Create a resource group "new-rg" in South Central US region

Send the commands along with the screenshots for the completion of this assignment.

The screenshot displays the Azure portal interface. The top navigation bar shows the user is logged in as Shanawazkhan683@gm... with a default directory. The main content area is titled "Resource groups" and shows a list of two resource groups: "New-rg" and "xyz". Both are in the "Free Trial" subscription and located in "Central India" and "South Central US" respectively. Below the list, there is a terminal window for the Azure Cloud Shell. The terminal shows the command to create a new resource group "new-rg" in the "southcentralus" location. The output indicates that the resource group already exists in the "centralindia" location. The terminal also shows the command to create a resource group "xyz" in the "southcentralus" location, which is successful.

```
Bash
Requesting a Cloud Shell.Succeeded.
